EXPERIENCE

Food Delivery Platform

COOKER SOLUTIONS

<https://play.google.com/store/apps/details?id=com.cookernht.cooker>

Independently designed, developed, and created graphics for a food delivery platform consisting of an Android application for customers, a restaurant owner app for order management, a delivery boy app for delivery, and an admin panel for platform management...

Accomplishments:

- Conceptualized, designed, and brought to life the Cooker ecosystem, including the customer-facing app (Cooker) with user authentication, restaurant menu browsing, order placement, and delivery tracking, the delivery partner app (Cooker Delivery Partner), the restaurant partner app (Cooker Partner), and an efficient owner/admin panel.
- Designed and created graphics for the app, including logos, icons, and user interface elements.
- Integrated Firebase for real-time database and user authentication, and Stripe for payment processing.
- Maintained open and collaborative communication with clients for feature implementation, and continuous improvement based on user feedback.
- Launched the platform on the Android platform, receiving positive user feedback and achieving a high rating on app stores, garnering over 4,000 downloads and facilitating more than 700 successful food deliveries within a short timeframe.

SKILLS

Android (React Native), React, JavaScript, Redux, HTML, CSS, Git | Responsive Design, Cross-Browser Compatibility | UI/UX Design, Photoshop, Adobe XD / Figma | Problem-solving, Adaptability, Time Management.
